# Osteoporosis: Why it Matters

**THURSDAY, OCTOBER 3, 2013**

6:30 P.M., NOPPENBERGER AUDITORIUM

PRESENTED BY: KATHY MULFORD, MSN, CRNP, ONP-C

DIRECTOR OF BONE HEALTH CENTER, TOWSON ORTHOPAEDIC ASSOCIATES

Osteoporosis is a condition where the bones become weak and can break from a minor fall or simply from a sneeze or bumping into furniture. Come listen and learn about osteoporosis and treatments that can reduce your risk of breaking a bone.

To register, please call 410-337-1337 or visit [stjosephtowson.com/events](http://stjosephtowson.com/events)
